# FAST LOGISTICS – UAE

Fast Logistics with its headquarters in Dubai, UAE, operates in the thriving Freight and Logistics Market which is valued at USD 19.65 billion in 2020 and is projected to reach USD 31.41 billion by 2026. As the third-largest logistic industry globally, the UAE serves as a crucial transit point for substantial cargo volumes transported via air and sea. Fast Logistics understands the immense potential of the UAE as a gateway for international trade and leverage its pivotal role in the global economy and its robust infrastructure. We harness this advantage to drive our business forward, constantly seeking new opportunities and optimizing our operations by capitalizing on the thriving market and utilizing our expertise, we aim to continue our growth trajectory and deliver exceptional freight and logistics services to our valued clients, both within the UAE and globally.

# FAST LOGISTICS – INDIA

India's \$215 billion logistics industry plays a crucial role in driving the Indian economy forward. Fast Logistics, has its Asia & Africa headquarters situated in Mumbai and operates extensively across the country with over 15+ offices. We have established strong verticals in various sectors, including solar logistics, tea logistics, as well as engineering, industrial, pharmaceutical, and perishable goods logistics. Our expertise extends beyond handling diverse types of cargo and specialize in managing complex cargoes such as ODCs, project, and special equipment, both to and from India, connecting destinations across the globe. By leveraging our extensive network and industry knowledge, Fast Logistics aims to provide seamless logistics solutions to our clients, offering reliable transportation services tailored to their specific needs. Our presence and expertise in India enable us to efficiently navigate the intricacies of the local market, ensuring swift and efficient movement of goods.

# FAST LOGISTICS – CHINA

Fast Logistics, a prominent player in the logistics industry, recognizes China's top-ranking position according to the Gulf Cooperation Council (GCC). With headquarters in Guangzhou and 19 offices strategically located across China, Fast Logistics has rapidly expanded to cater to this thriving market. Fast Logistics provides warehousing facilities throughout China, ensuring efficient storage and distribution solutions. We focus on key markets such as the Red Sea, Mediterranean Sea, Middle East, India, and Africa. Our major shipping line partners from the Far East include Maersk, CMA - CGM, PIL, Hapag-Lloyd, MSC, and Wan Hai, enabling us to offer seamless shipping services. Through our strategic partnerships, Fast Logistics remain committed to delivering efficient, reliable, and tailored logistics solutions, solidifying our presence in the industry, and meeting the evolving demands of our customers.

# FAST LOGISTICS – TURKIYE

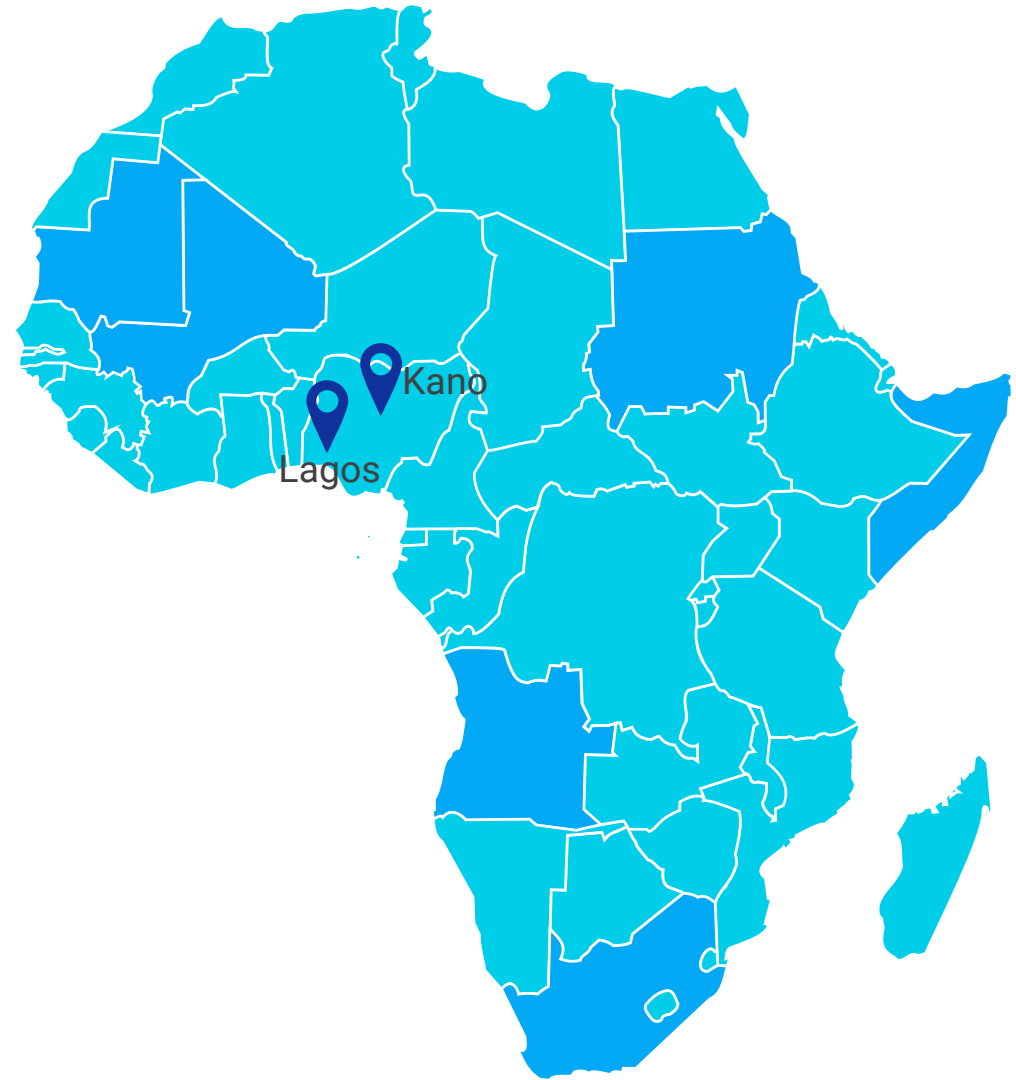

Türkiye, a land of economic potential and a gateway for Asia to EU and America, aims to be among the top 10 global economies and the total freight carried in Türkiye's centres is projected to reach USD 500 billion. Türkiye plays a pivotal role in connecting continents and facilitating international trade. Its strategic location between African, European, and CIS countries further enhances its significance. Türkiye's New Istanbul Airport (Havalimani İşletmesi A.Ş.) stands as Europe's largest airport, handling a substantial 60 million tonnes of air freight cargo transit. This modern infrastructure reinforces Türkiye's connectivity and logistics capabilities. Fast Logistics recognizes the strategic importance of Türkiye and its role in global trade. We are committed to providing efficient and reliable logistics services, leveraging Türkiye's advantageous position to contribute to its economic growth and meet the diverse needs of our clients.

# FAST LOGISTICS – AFRICA

The Freight & Logistics sector in Africa holds a substantial position in the economy, contributing about 10 percent to the Gross Domestic Product (GDP). Fast Logistics - Africa operates its regional office in Nigeria, with offices in Lagos and Kano. As a fully licensed Freight Forwarder and Agent/Handler of Foreign Cargo Airlines, we facilitate air, sea, and road connectivity to destinations within West Africa and inland African locations. Lagos, in particular, serves as a regional hub for air-to-air connections and plays a crucial role in regional sea and road transportation. Our presence in Africa enables us to deliver efficient logistics solutions tailored to our clients' needs, contributing to the growth of the Freight & Logistics sector in the region.

# FAST LOGISTICS – SAUDI ARABIA

Saudi Arabia holds a dominant position in geopolitics and economics among Arab countries. With its strategic location at the crossroads of Asia, Europe, and Africa, the country benefits from easy access to major trade routes like the Suez Canal. Saudi Arabia's well-developed transport infrastructure, including modern airports like King Abdulaziz International Airport, King Khalid International Airport, and King Fahd International Airport, plays a crucial role in handling significant air freight volumes and maintaining strong connections with global cities. Key sea ports, including Jeddah, Yanbu, Dammam, and Jubail, serve as vital gateways for trade, facilitating efficient imports, exports, and transshipment of goods. Fast Logistics establishes in Saudi as its GDP is projected to rise significantly to play a pivotal role in global economic growth. The country has made substantial investments in research & development, entrepreneurship, and technological advancements, fostering innovation such as the NEOM mega-city and the King Salman Energy Park, showcasing its commitment to renewable energy and industrial development. The Vision 2030 transformation program aims to prioritize logistics industry, attracting investments to stimulate non-oil trade. Fast Logistics aims to utilize its abundant resources, infrastructure, and technology to deliver exceptional results to our clients worldwide.

# OUR PROVISIONS IN KSA – FMCG GOODS

# OUR PROVISION IN KSA – FMCG GOODS

Fast Logistics FMCG product services are designed to ensure swift and efficient movement of your fast-moving consumer goods throughout the supply chain. We understand the unique requirements of FMCG products, including their perishability, time sensitivity, and high-volume demands. Our logistics experts work closely with you to develop customized solutions that optimize inventory management, reduce lead times, and enhance distribution networks. With our seamless FMCG product logistics, you can meet consumer demands, reduce stockouts, and gain a competitive edge in the market. At Fast Logistics International, we offer a range of warehousing and distribution services including 2PL, 3PL, 4PL, and last mile delivery solutions for cargo companies.

## 2PL Warehousing

Our 2PL warehousing services enable the customers to store their commodities in our warehouses, with the customer responsible for inventory management and arrangement for delivery and pickup.

## 3PL Warehousing and Distribution

Our 3PL services include transportation, inventory management, and warehousing, providing comprehensive logistics solutions for our clients such as order fulfilment, pick-up, and distribution.

## 4PL Logistics

We outsource all logistics operations to our 4PL logistics services, managing everything from warehouse operations to transportation, inventory control, and order fulfilment. We work closely with clients to establish the most effective and cost-effective solutions.

## Last Mile Delivery Solutions

We provide last mile delivery solutions that ensure timely and reliable product delivery to our customers' end users. We have a team of experienced delivery professionals, and our advanced technology provides real-time delivery track and trace, proof of delivery, and customer service.

# OUR PROVISION IN KSA – FMCG GOODS

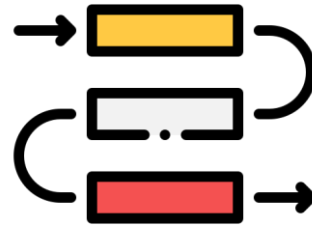

## Our warehousing and distribution capabilities include

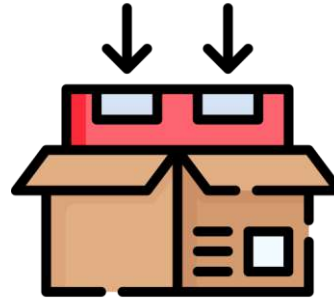

Secure, climate-controlled storage facilities

Efficient and organized inventory management

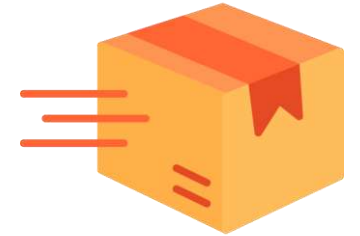

Expert order fulfilment and processing

Advanced pick and pack services

Real-time inventory tracking and reporting

Transportation management to ensure on-time and cost-effective delivery

Fast Logistics International provides tailored storage and transportation services to meet the customers' requirements. Contact us to find out how we can support your cargo corporation's logistics necessities.

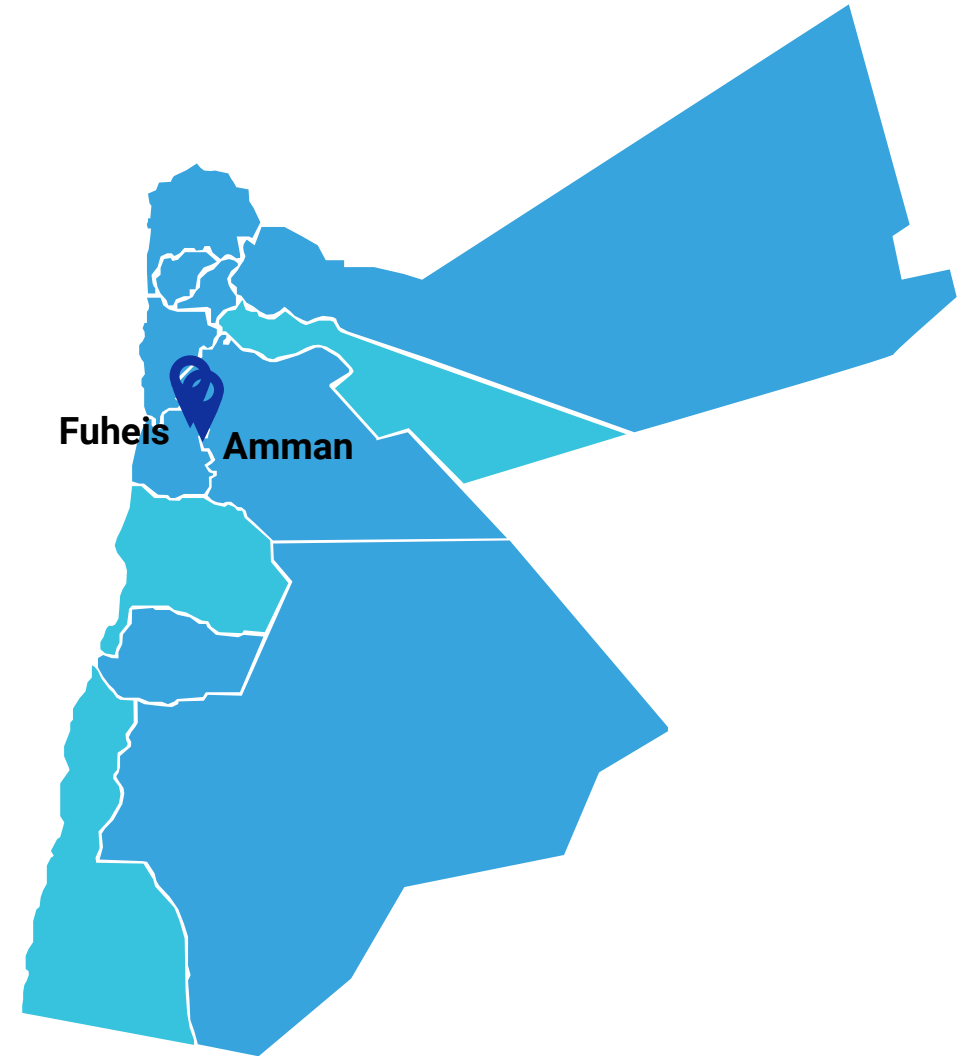

# FAST LOGISTICS – UK

The UK is a prime logistics hub, strategically located with efficient infrastructure and a skilled workforce. With exports and imports surpassing £1.1 trillion in 2020, it ranked as the 9th largest trading nation globally. The logistics sector plays a vital role in the UK economy, showing steady annual growth of 3.6%. Major cities like London, Manchester, and Birmingham offer excellent connectivity and advanced logistics facilities. The UK's well-developed infrastructure, including extensive roadways and railways, along with the Port of Felixstowe, positions it as an attractive destination for logistics operations and contributes to sector growth. Fast Logistics aims to cater to manufacturers/exporters, importers, and 3rd party logistics/freight forwarders, focusing on key markets such as China, India, Turkey, UAE, and Saudi Arabia, where we have established our own offices. With the ongoing UK-India free trade talks, the UK is set to benefit from the projected import requirements of GBP 1.35 trillion by 2035, positioning itself favourably in the market. The UK-India trade relationship was valued at 35.9 billion in 2022, with India contributing to 2.1% of total UK trade. Similarly, trade between the UK and China reached a substantial volume of 111.0 billion dollars, making China the UK's 4th largest trading partner. These figures underscore the significance of these markets and the potential business opportunities they offer. With our strong presence and expertise in these regions, Fast Logistics is well-equipped to support manufacturers/exporters, importers, and 3rd party logistics/freight forwarders in capitalizing on the trade prospects between the UK and these key markets.

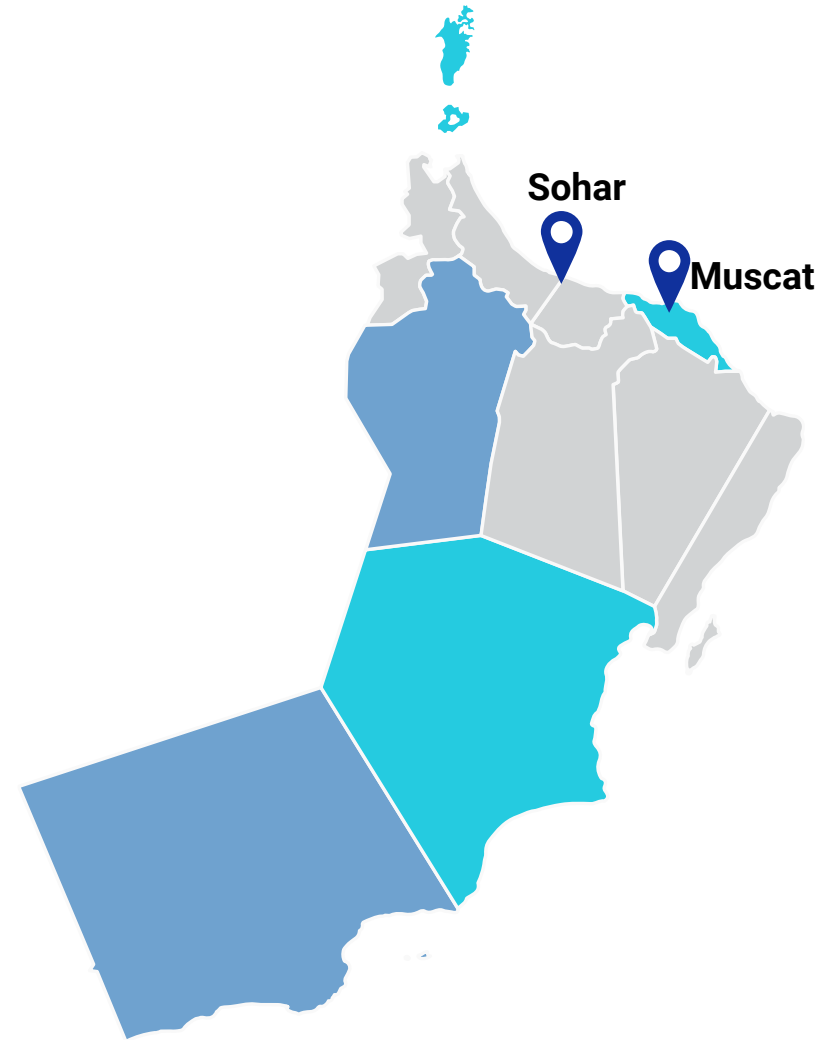

# FAST LOGISTICS – JORDAN

We are strategically expanding into Jordan, an enticing business destination in the Middle East, as a renowned logistics enterprise known for its adept supply chain solutions. Jordan's geographically strategic location links Europe, Asia, and Africa, making it an ideal base for logistics companies seeking to optimize cross-border trade. With Jordan's trade volume reaching \$15.57 billion in 2022 and a GDP growth rate of 2.4%, the country's growing significance as a regional trade hub instills confidence in our decision to enter this market. Our goal is to make a profound impact in Jordan's logistics industry by providing reliable and efficient supply chain services. With a relentless commitment to excellence and a wealth of expertise and resources, we aim to exceed the expectations of our diverse regional clients. We seek to set new industry standards, forge lasting partnerships, and become a pioneering force in the global logistics arena through seamless and innovative solutions tailored to our clients' specific needs.

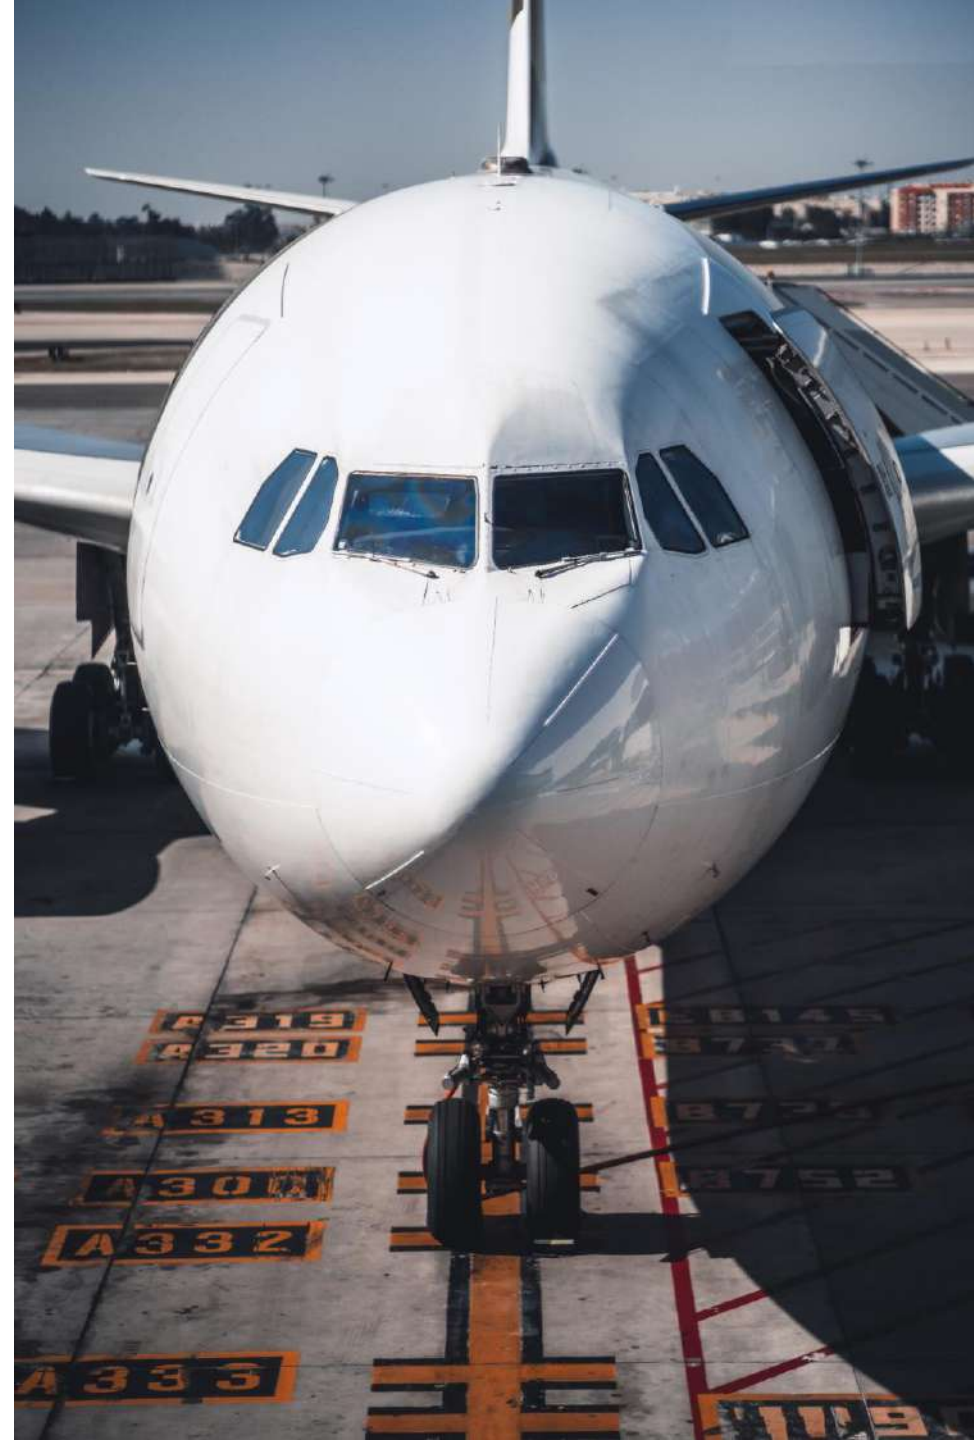

# FAST LOGISTICS – OMAN

Fast Logistics is on a relentless mission to elevate Oman's logistics sector to new heights of excellence. The Sultanate of Oman has witnessed a resounding growth, with 23% surge in total trade volume in 2022, with more expansion in the pipeline. Fast Logistics - Oman is at the forefront of this logistics renaissance, focusing on pivotal ports like Sohar and Salalah. These ports have not just thrived; they have exploded into powerhouses, seamlessly handling millions of TEUs annually. Centered to our success are the suite of logistics services, meticulously designed to empower businesses operating within this location. We don't just optimize efficiency; we amplify it. As a result, we're instrumental in elevating Oman's trade impact, internationally.

# Airfreight

Airfreight or Air cargo ensures swift global delivery despite its higher cost-to-weight ratio; it remains the fastest mode of transportation for products worldwide. As an IATA agent for major airlines, we offer a wide range of comprehensive air logistics solutions. Understanding the premium and costly nature of airfreight, we prioritize fast transit and continuous communication, while also providing flexibility to optimize costs through consolidation and intermodal alternatives.

# Aerospace Logistics

Fast Logistics specializes in handling aerospace equipment logistics with proficiency and precision. With extensive experience in the aerospace industry, we effectively manage the intricate requirements of transporting valuable and sensitive equipment. Our team coordinates meticulous packaging, handles aerospace components, and ensures compliance with customs & regulations. Timely deliveries are prioritized, and we maintain the safety and integrity of the equipment through streamlined processes and stringent security measures. Our partnerships with industry-leading carriers and access to specialized transportation modes, such as air freight and dedicated ground transportation, guarantee prompt and optimal delivery of your aerospace equipment. When you entrust Fast Logistics with your aerospace equipment logistics needs, rest assured that your valuable assets are in capable hands. Our commitment to excellence, attention to detail, and customer-centric approach make us the ideal choice for handling the logistics of your aerospace equipment.

# Sea Freight

Ocean freight, or sea freight, is the predominant global mode of transportation for importers and exporters. It encompasses 90% of all shipped commodities worldwide, including all types of cargoes appending oversized and overweight shipments. Sea freight efficiently transports across the globe with intricate networks, albeit the longer transit times. Fast Logistics specializes in supporting large corporations in seamlessly moving their cargoes across the globe and effectively managing complex and sophisticated supply chains.

# SOLAR LOGISTICS

Fast Logistics is at the forefront of promoting sustainable energy generation and environmental preservation. Our company takes pride in offering exceptional handling, storage, and shipping services specifically tailored for importing solar panels. We specialize in supporting the establishment of large-scale solar energy plants in major cities and emerging economies worldwide, including China, India, and Brazil. By facilitating the global deployment of solar panels, we actively contribute to the growth of renewable energy and the protection of our planet.
